

2021 AVIATOR

Always begin on a bright note.

Whether your day ahead is filled with places to be, or as open as a big blue sky, the 2021 Lincoln Aviator starts it with a warm embrace. As you approach, Lincoln Signature Lighting flows beneath the headlamps, while the available illuminated Lincoln Star on the grille glows from within. Illuminated Lincoln logo welcome mats and backlit door handles extend an invitation, while the Dynamic Lower Entry feature of the available Air Glide Suspension eases access for all. Every drive starts with beautiful chimes orchestrated by a world-renowned symphony as the LCD screen animation takes you soaring through blue skies. Elevate life's journey in your Aviator.

Vehicle imagery throughout this brochure may be computer-generated and may include available and aftermarket equipment.

2021 AVIATOR

TURBOCHARGE YOUR TRAVELS

Treat yourself to one of the most powerful and compelling engines in the Lincoln lineup: the Twin-Turbocharged 3.0-liter V6 that gives Aviator 400 horsepower and 415 lb.-ft. of torque.¹ This gasoline direct-injected engine is driven by your choice of rear-wheel drive or available Intelligent all-wheel drive. And it's mated to the 10-speed SelectShift[®] automatic transmission, which can adapt in real time, engaging the right gear at the right time to deliver the performance you seek.

400_{HP}¹ 415_{LB.-FT. TORQUE}¹

¹Horsepower and torque ratings based on premium fuel per SAE J1349[®] standard. Your results may vary. Horsepower and torque ratings are independent attributes and may not be achieved simultaneously.

2021 AVIATOR

THRIVE WITH LINCOLN DRIVE MODES

Aviator puts the power to adapt your drive right at your fingertips. Simply turn the knob to select a Lincoln Drive Mode, and the system adjusts suspension, ride height, steering, shift points and more, to help provide a remarkable driving experience.

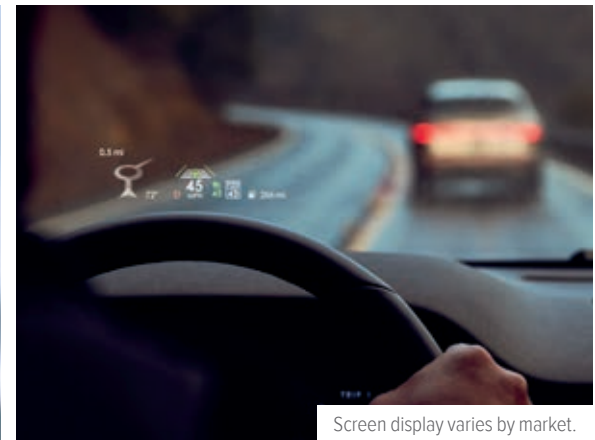

IMMERSE YOURSELF IN ELEGANCE

Imagine a place specially designed to evoke a sense of serenity, a sanctuary where you can relax and unwind after a challenging day. The 3-row Aviator cabin is carefully crafted to be that place. Step inside and Aviator recalls your saved Personal Profile settings for the driver's seat. Tuck your phone into the available wireless charging pad¹ inside the center console, and set off on your sojourn by shifting into gear with the elegant Piano Key Shifter buttons. Then, relax into the available 30-way Perfect Position Seats with Active Motion[®] massage functionality, and available heated and ventilated settings.

¹Qi wireless charging may not be compatible with all mobile phones.

Screen display varies by market.

CONVENIENCE AT A GLANCE

The available, customizable Head-Up Display¹ automatically adjusts the prominence of information as priorities change, and it's easily seen in various light conditions. Tuck your phone into the available wireless charging pad² inside the center console for easy, cable-free charging. Plus, the stunning 10.1" touchscreen allows you full control of your smartphone right at your fingertips.

¹Don't drive while distracted. See owner's manual for details and system limitations. ²Qi wireless charging may not be compatible with all mobile phones.

TRANSPORT UP TO 7 PASSENGERS

From short jaunts around town to epic getaways, the 3 spacious rows of seating inside Aviator make it easy to travel with family and friends. Seat up to 7 when you combine the 2nd-row bench seat with the standard 3rd-row PowerFold® bench seat. Or seat up to 6 with the available heated and ventilated 2nd-row captain's chairs, which pair with your choice of an available full center console, or a step-over mini console with convenient pass-through to the 3rd row.

With up to 6 available smart-charging USB ports, a 110V/150W AC power outlet and two 12V powerpoints, you'll maintain harmony on those long trips by helping keep everyone's devices charged up.

ADAPT WITH REMARKABLE EASE

You'll enjoy effortless loading and unloading of people, pets and so much more using the power tip-and-slide feature on the 2nd-row outboard seats. To access the cargo room behind the 3rd row, simply kick your foot beneath the available hands-free liftgate. You can also press the PowerFold 3rd-row seat buttons in the rear cargo area to quickly expand your cargo-carrying possibilities.¹

Screen display varies by market.

¹Cargo and load capacity limited by weight and weight distribution.

2021 AVIATOR

STANDARD LINCOLN CO-PILOT360™

From help lighting up the night to helping you stay on course, every Aviator driver can benefit from our Lincoln Co-Pilot360 suite of driver-assist technologies,¹ which includes:

- AUTO HIGH-BEAM HEADLAMPS
- BLIND SPOT DETECTION WITH CROSS-TRAFFIC ALERT
- LANE-KEEPING SYSTEM
- PRE-COLLISION ASSIST WITH AUTOMATIC EMERGENCY BRAKING
- REAR VIEW CAMERA

JOURNEY WITH CONFIDENCE

Our extensive collection of standard and available driver-assist technologies¹ utilizes a network of sensors and sophisticated cameras to offer you support during many scenarios. These advanced features are all aimed at helping you feel confident in the 2021 Lincoln Aviator.

AVAILABLE LINCOLN CO-PILOT360 PLUS

A number of available driver-assist technologies¹ are conveniently packaged together as Lincoln Co-Pilot360 Plus, including Adaptive Cruise Control with Traffic Jam Assist, which combines Lane Centering, Stop-and-Go, and Speed Sign Recognition, to help keep you driving confidently. Lincoln Co-Pilot360 Plus includes:

- ACTIVE PARK ASSIST
- ADAPTIVE CRUISE CONTROL
- REVERSE BRAKE ASSIST

¹Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. It does not replace safe driving. See owner's manual for details and limitations.

CONNECT AND COMMAND

SYNC 3 voice-activated technology¹ connects your tech with your Aviator, and puts you in control of calls, music and more with the tap of a button on your steering wheel and simple voice commands. You can also tap or swipe the stunning 10.1" touchscreen. To see your phone's familiar interface on the large screen, you can take advantage of compatibility with Apple CarPlay^{®2} for your iPhone.[®] It is also compatible with Android Auto.^{™2}

NAVIGATION STATION

Locating a point of interest or simply receiving turn-by-turn directions begins with just the press of a button. Then, the available Voice-Activated Touchscreen Navigation System listens to help direct you to wherever you want to go. Plus, the pinch-to-zoom touchscreen lets you get an up-close perspective for a better view of the digital road.

ENGAGE WITH DYNAMIC AUDIO

You won't just hear it – you'll feel the exceptional level of precision and musical accuracy offered by the expertly engineered Revel[®] Ultima 3D Audio System that's available. Enjoy your favorites through a network of 28 speakers – including 8 in the headliner – finely tuned to the Aviator interior. It's as if you're seated in a concert hall, and listening modes like "Audience" and "On Stage" let you choose your level of immersion. Outstanding, multi-dimensional sound in every seat is courtesy of advanced cabin correction tuning, QuantumLogic[®] 3D Surround sound technology, and Revel Waveguides. With 127 steps of adjustment, the immersion control slider lets you customize how the music envelops you for a personalized sound experience.

Screen display varies by market.

Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. ¹Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Functionality varies by market. ²Requires device with active data service and compatible software. SYNC 3 does not control 3rd-party products while in use. 3rd parties are solely responsible for their respective functionality.

Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Google, Android, Android Auto and Google Play are trademarks of Google LLC. Requires the Android Auto app on Google Play and an Android compatible smartphone running Android[™] 5.0 or higher. QuantumLogic, Revel and the Revel logo are trademarks of HARMAN International Industries, registered in the United States and other countries.

GLIDE WITH EFFORTLESS GRACE

It's as though every stretch of road feels freshly paved with the advanced technologies in the available Dynamic Handling Package. Adaptive Suspension with Road Preview helps Aviator detect upcoming road irregularities, then carries you comfortably over them. The Air Glide Suspension optimizes the vehicle's ride height and spring rates as your load and operating conditions change. With the Dynamic Lower Entry feature, the vehicle appears to "kneel" as you approach, graciously lowering by 50 mm to ease your entry. In Deep Conditions mode, it raises 30 mm above normal ride height to improve ground clearance. In Excite mode, it lowers to increase aerodynamics. Quite simply, this system helps Aviator deliver a smooth riding experience under just about any condition.

ILLUMINATE A NEW PATH

See things in a whole new light with the groundbreaking technology in the available Illumination Package. Adaptive Pixel LED Headlamps use Speed Dependent Lighting to provide additional light, and spread it more widely at slower speeds to emphasize the area around and directly in front of the vehicle. Their Adaptive Dynamic Bending can even illuminate an upcoming curve before you steer into it. This enlightening package also includes the illuminated Lincoln Star on the grille.
